INVITATION

Dear Colleagues, the **NSS Pondicherry Rose Chapter** cordially invites nursing faculty, nurses, students and healthcare professionals to a **three-day online scientific programme** in observance of World Diabetes Day.

ABOUT THE SERIES

Early identification and timely action are central to reducing diabetes-related harm. This webinar brings together experts to explore prevention in adolescence, artificial intelligence and emerging approaches to youth diabetes care.

OBJECTIVES

1. Strengthen awareness of type 2 diabetes risk reduction and early recognition in adolescents
2. Explore applications and limitations of AI-assisted diabetes detection and monitoring
3. Discuss innovations in youth diabetes management

THREE DAYS · THREE TOPICS

11 NOV	**Act Early, Live Better**	Type 2 Diabetes Prevention in Adolescents
12 NOV	**Detect Smart**	AI in Adolescent Diabetes Care
13 NOV	**Beyond Insulin**	New Frontiers in Youth Diabetes Care
